

## Inter-Agency Escalation Policy:

### The Resolution of Professional Inter-Agency Disagreements about Safeguarding Children

#### Introduction

In order to safeguard children and young people it is important that there is close collaboration by all partner agencies working with the child/young person and their family. As partners by building relationships, we generally resolve issues at a personal / local level, however, there are times when we need to escalate. Occasionally concerns or disagreements arise over another professional's actions, lack of action, or decisions in relation to safeguarding a child. Disagreements may arise around:

- 
- Referrals
- Access to Services
- Levels of Need
- Assessments
- Roles and Responsibilities
- Progressing Plans
- Communication

This Policy aims to resolve professionals' differences in line with the [London Safeguarding Children Procedures](#). All professionals have a duty to act assertively and proactively to ensure that a child's welfare is kept the paramount consideration in all professional activity to ensure their needs are met appropriately.

All agencies are responsible for ensuring that their staff are competent and supported to escalate appropriately inter-agency concerns and disagreements about a child's wellbeing.

**Professionals should attempt to resolve difference through discussion and / or meeting within a working week or a timescale that protects the child from harm (whichever is less). However, if a child is thought to be at risk of immediate harm the designated safeguarding lead in your agency should be informed immediately who will need to inform Wandsworth Head of Safeguarding Standards of the concerns. Consideration to be given to refer the case to MASH.**

#### Keeping Records

**At all stages of the process, actions and decisions must be recorded in writing and shared with relevant officers including the worker who raised the initial concern. A written confirmation of the agreed outcome of the disagreement and what action to be taken to be shared. If gaps are identified in policies and procedures, this must be reported to WSCP.**

#### Stages of the Policy

##### **Stage 1: Involving Your Line Manager / Designated Safeguarding Lead / Named Safeguarding Children Nurse / Doctor**

Any worker who feels that a decision is not safe or is inappropriate should initially consult their first line manager as above to clarify their thinking in order to identify the problem, to be specific as to what the disagreement is about, and to identify the desired outcome. Individuals may wish to refer to the Escalation Policy for their

organisation. The first line manager should seek advice from their agency's designated safeguarding children professional.

### **Stage 2: Involving the worker from other agency / service**

The people who disagree have a discussion to resolve the problem. This discussion must take place as soon as possible and could be a telephone conversation or a face-to-face meeting. There may be instances where disparity in perceived status or experience may inhibit the ability of some workers to resolve the disagreement without support.

### **Stage 3: Escalate Line Manager to Line Manager**

If the problem is not resolved at stage two the worker should contact their supervisor / manager within their own agency who should have a discussion with the equivalent supervisor / manager in the other agency. If the case involves a Child Looked After or child subject to a Child Protection Plan (CPP), the IRO/CP coordinator should be informed.

### **Stage 4: Escalate to named / designated safeguarding leads or senior manager**

If agreement cannot be reached following discussions between first line managers within a further working week or a timescale that protects the child from harm (whichever is the less), the issue must be referred without delay through the line management to the equivalent of service manager/ detective inspector / head teacher / designated named safeguarding nurse / doctor or other designated or named safeguarding children senior professional. These two managers must attempt to resolve the professional differences through discussion.

### **Stage 5: Escalate to members of WSCP Executive / Assistant Directors / Directors**

If the problem is not resolved at stage four the senior manager or named / designated safeguarding representative reports to their respective Head of Service / Assistant Director / Member of the WSCP Executive who must attempt to resolve the professional differences through discussion.

### **Stage 6: Resolution by Wandsworth Safeguarding Children Partnership (WSCP) though a chaired meeting**

When a resolution has not been achieved at stage five, the Chair of WSCP should be approached to identify a Board member from an uninvolved agency to chair a meeting that include the most senior managers with operational responsibility for the case. This meeting will review the issues at hand and provide a final opportunity for the involved agencies to ensure that there is a full understanding of the issues before the final decision is made. The Chair of this meeting will then report issues arising from this process to the Safeguarding & Continuous Learning (SCL) subcommittee of the WSCP.

### **Requesting a Child Protection Conference**

**A Child Protection Conference should be convened if requested by a professional, supported by a senior manager / named or designated professional. If the disagreement about the decision to hold the conference between agencies continue, the matter should be referred to the WSCP. Please refer to [London Safeguarding Children Procedures](#) for more information.**
