# Edibles

---

Young People's Substance Misuse Team

# Edibles

# Edibles

- **Edibles are food products that are infused with Cannabis.**
- **Eating products that are laced with cannabis is becoming more popular with young people.**
- **Edibles often contain a large amount of THC which is the main active ingredient in cannabis and what causes the high.**
- **The effects from eating cannabis take 1-4 hours to be felt, this is because food is absorbed through the liver, stomach then blood stream and so the effects take longer. Because of this, users may end up taking more as they feel like the cannabis isn't working.**

# Edibles

- You can buy CBD or THC edibles
- Available online or in shops in the UK or online
- Usually about £20.00 for a pack of 30 or £1:00 each
- When consumed, edibles can make the user experience psychotic episodes, hallucinations, paranoia and panic attacks
- Some can contain as little as 75mg or as much as 600mg of THC.

# Edibles

- **THC edibles are illegal for yp and adults**
- **CBD edibles are illegal for yp but not adults (but must have less than 0.2% THC content)**
- **THC edibles are unregulated and cannot account for how much THC is in each sweet.**
- **Young People have been taken to hospital due to overdosing on Edibles (mainly THC edibles)**
- **Young People are making and selling edibles**
